

AM2801**250W Floor Standing Karaoke Speaker****Description**

The AM2801 250W Floor Standing Karaoke Speaker is designed to deliver powerful and immersive sound for karaoke rooms, home theaters, and entertainment venues. Featuring a 10-inch low-frequency driver and 1-inch high-frequency driver with neodymium magnet technology, it provides clear vocals, rich bass, and balanced sound performance for professional entertainment applications.

Features

- Professional 2-Way Driver Design: Equipped with a 10-inch LF driver and 1-inch HF driver with neodymium magnet technology for powerful bass and detailed high-frequency performance.
- Powerful Audio Output: Delivers 250W AES power handling and up to 124dB peak SPL for dynamic sound performance in entertainment spaces.
- Wide Frequency Response: Covers 40Hz–20kHz to provide rich low frequencies and clear high-frequency details.
- High Sensitivity Performance: Features 94dB sensitivity for efficient sound output with excellent clarity.
- Wide Sound Coverage: Provides 80° × 80° dispersion for balanced sound distribution throughout the listening area.
- Front Bass Reflex Design: Enhances low-frequency response with a front-firing bass reflex port for powerful and controlled bass.
- Stable Floor-Standing Structure: Designed with a built-in base stand for secure placement and easy installation.
- Durable Cabinet Design: Features a professional enclosure suitable for karaoke rooms, home theaters, and entertainment applications.
- 8Ω Nominal Impedance: Compatible with a wide range of professional audio amplifiers.
