

AL006**Single Red 6-Eye Laser Light****Description**

The AL006 Single Red 6-Eye Laser Light is designed for creating vivid multi-beam laser effects in stage and entertainment applications. It utilizes a high-power 500mW red laser source combined with a multi-aperture optical design to deliver striking and dynamic visual patterns. With wide input voltage compatibility and a compact linear housing, it ensures stable operation and easy installation in various lighting setups.

Features

- Whole machine power: 120W
- Laser power: single/500MW
- Working voltage: AC110-2220V
- Product Dimensions: 840 ×90×240MM
- Weight: 12KG
