

AM321**Silica Sand Acoustic Art Panel for Conference Room****Description**

The Silica Sand Acoustic Art Panel combines acoustic performance with decorative design to enhance both sound quality and interior aesthetics. Featuring a natural silica sand surface, it helps create a more comfortable acoustic environment while serving as an elegant wall decoration. Ideal for conference rooms, offices, auditoriums, hotels, educational facilities, and other commercial interiors.

Features

- **Excellent Sound Absorption:** Class 1 sound absorption performance for improved acoustic comfort.
- **Decorative Sandstone Surface:** Natural textured finish that is easy to clean and can be repainted for refurbishment.
- **Class A Fire Rated:** Non-combustible material for enhanced fire safety.
- **Moisture & Water Resistant:** Resists moisture and water without discoloration or surface degradation.
- **Long Service Life:** Engineered for reliable performance and an extended service life of up to 30 years.
- **Easy Installation:** Partial suspension mounting allows for quick, simple, and cost-effective installation.
- **Customizable Surface Designs:** Available in a variety of patterns and custom artwork to complement different interior styles.
