

MH130**Mars 200W LED Beam Moving Head Light****Description**

The MH130 Mars 200W LED Beam Moving Head Light is a high-performance lighting fixture designed for professional stage and event applications. It features a powerful 200W LED beam source combined with rich color, pattern, and prism effects to deliver sharp and dynamic visual performance. With precise pan/tilt movement, multiple control modes, and smooth linear dimming, it ensures flexible and reliable operation in various lighting setups.

Features

- Voltage: AC100V-240V 50/60HZ
- Power: 350W
- Light source 1: 200WLED module lamp beads
- Light source 2: 23 5050*0.2W
- Pattern: 13 patterns + (3 wave patterns) + white light
- Color: 11 colors + white
- Prism: honeycomb prism
- Channel: 14CH
- Control mode: DMX512, self-propelled, master-slave, voice control
- Dimming: 0-100% linear dimming
- Protection level: IP20
- Material: iron + plastic ABS
- Lamp body color: black
- Effect: atomization
- X axis: 540°
- Y axis: 270°
