AM5030

30W Passive 2-Way Bookshelf Loudspeaker

Description

This 30W bookshelf speaker features a 5-inch woofer and a 1-inch tweeter, delivering clear and balanced sound reproduction. With a frequency response of 70Hz–20kHz, it provides well-defined bass and detailed high frequencies. The birch plywood cabinet offers a sturdy enclosure while maintaining a compact and practical design. With an 8Ω impedance and a sensitivity of 85dB, it is suitable for home audio systems, desktop audio setups, and music listening in living rooms, bedrooms, and studies.

Features

- 5-inch woofer and 1-inch tweeter for balanced sound reproduction.
- Frequency response of 70Hz–20kHz for clear and detailed audio.
- 30W rated power for everyday sound reinforcement applications.
- Birch plywood cabinet for a sturdy speaker enclosure.
- 8Ω impedance for compatibility with various audio systems.
- Compact bookshelf design for flexible placement in various spaces.
